---------------------------------	---------------------------------	------------------------------

~ If the EGT gauge reads lower the 60 or higher the 165 (X10 F)
 For more the 3 seconds, the Digital number will start to flash
 and warn you.

~ EGT gauge display: Digital type --> 39~219 (X10 F)
 Analog Type --> 400~2400 F

You will need to drill and tap a 1/8th NPT fitting for the probe to go into. We recommend a professional to tap this. Try to avoid shavings from going into the manifold or exhaust.
